

Fuel Tank Permit Requirements (Above/In-Ground)

APPLICATION NO. _____

Mountain View Fire & Rescue – City of Black Diamond

Fire system permits are governed by the International Fire and Building Codes and must meet fire and life safety requirements. All applicable fees are paid at time of application and only complete applications will be accepted.

Complete Permit Submittal Shall Include:

1. Fire Division Master Application
2. Certification and Transfer of Applicant Status Form
3. Three (3) copies of the site plan that shows:
 - a) The tank location;
 - b) Setbacks to property lines and all structures;
 - c) All structures on lot;
 - d) Source of ignition;
 - e) Streets/driveways;
 - f) All gas piping connections from the tank to the house;
 - g) Show how the tank will be protected from vehicular damage if in proximity to alleys, driveways/roadway, or parking;
 - h) Manufacturer's specs for the tank;
 - i) The tank may have to be located on a structural slab with seismic anchorage.
4. Description of the proposed Temporary Use (discuss time frame use for operation)
5. Copy of approved septic as-built drawing, if applicable
6. Copy of contractor registration or Owner Affidavit
7. City Business License, if applicable

****Tanks and piping serving oil-burning equipment which have been out of service for a period of one year shall be removed from the ground or abandoned in place in accordance with Section 34.04.2.13.1.3 of the International Fire Code.****
