NOTICE OF WITHDRAWAL OF SEPA MITIGATED DETERMINATION OF NONSIGNIFICANCE (MDNS)

NOTICE is hereby given that the **MITIGATED DETERMINATION OF NON-SIGNIFICANCE (MDNS)** made by the City of Black Diamond for **Roberts Drive Rehabilitation** project is hereby withdrawn.

WITHDRAWAL OF MDNS:

The City of Black Diamond issued a MDNS for this project action on March 14, 2017 with a comment period ending on March 28, 2017. The reason for this withdrawal is the City Council action on April 6, 2017 in which a 6-year Transportation Improvement Program was adopted excluding the portion of work from 100 feet west of the Rock Creek Bridge to Bruckner's Way (which would include repairs to the Rock Creek Bridge), the City will need to revise the scope of the project. The project limits will now be from Bruckner's Way to City Hall.

APPLICATION FILE NUMBER: PLN17-0012

PROJECT DESCRIPTION: The City of Black Diamond Public Works proposes to improve the existing, concrete-panel roadway on Roberts Drive from 100' west of Rock Creek Bridge to the Black Diamond City Hall. The Rock Creek Bridge will be repaired to extend the life of the bridge and will receive structural improvements. A pedestrian walkway will be attached to the bridge on the south side. A catch floor will be set under the bridge at Rock Creek to catch any falling debris while upgrades are made. The existing roadway will receive a complete overlay with asphalt and sidewalk, curb, and gutters. Pedestrian lighting will be installed on the south side of the road for the length of the project. Handrail lights will be likely installed in lieu of overhead lights at the bridge to minimize lighting over Rock Creek. The City will utilize a pervious concrete for the sidewalk and porous asphalt along the south shoulder, abutting the curb and gutter, from the bridge and continuing 500 Linear Feet to the east to Sunny Lane for stormwater treatment. The total project length is approximately 1,800 Linear Feet. Utility work will include the installation of new stormwater pipe to capture stormwater runoff that will tie into existing facilities.

PROPONENT: Scott Hanis, Capital Project/Program Manager, City of Black Diamond, Public Works Department

LOCATION OF PROPOSAL: The project will be located on Roberts Drive starting approximately 100 feet to the west of the Rock Creek Bridge (in front of 23703 Roberts Drive, King County parcel 152106-9002 and will extend to the east along Roberts Drive, ending at Cemetery Road just to the east of City Hall (24301 Roberts Drive, King County parcel 152106-9093). The length of this project will all occur within NE Section 15, 21N, Range 6E.
