Roberts Drive Traffic Impacts and Construction Update for the week of 4/3/17 to 4/7/17

This week Goodfellow Bros. will continue working on both ends of the project, Phase 1 and Phase 3. The pipe crew has officially brought the water-main from the Rock Creek Bridge and tied both water-lines into the project site. By mid this week, the pipe crew from Phase 3 will jump to the East side of Rock Creek Bridge and begin installation of the water main, this will be the beginning of constructing Phase 2. Traffic Control will remain the same with a (1) lane closure as it has been in the last few weeks.

The construction crew will take a few days to finish installing the water-main on Phase 1. Due to the area of this work, please avoid turning onto Robert's Drive, as the pipe crew will be right near the intersection of Roberts and SR 169. While they finish the installation of the pipe; there will be a grading crew prepping the travel lanes that have been disturbed during construction. We expect the pipe crew to be finished on the waterline of Phase 1 by mid-week, once they have finished they will jump back to the library and head West working on the water-main within Phase 2. Traffic Control will remain consistent as it had been in the previous weeks. The hours of construction are now, Monday - Friday 7-5 pm and Saturday 9-5 pm.

Please contact the City of Black Diamond at 360-886-5700 for additional information.
