Roberts Drive Traffic Impacts and Construction Update for the week of 4/10/17 to 4/15/17

This week the contractor will have two pipe crews installing water main at each end of “Phase 2.” The first crew is heading East from the Rock Creek Bridge. This crew will have a 1 lane road closure during working hours. There will be a day or two this week that the construction crew will be in front of neighborhood entrances; when they get to those points they will have a dedicated spotter/flagger to assist drivers coming in and out of the neighborhood. The 2nd crew is heading west on Roberts; they too will have a 1-lane closure.

Later this week, weather dependent, we will have a grading crew out in the Phase 1 area. This crew will begin removing concrete panels and prepping the roadway for asphalt pavement. Our goal is to have the roadway in phase 1 paved to asphalt by sometime next week.

The roadway remains closed with officers at the 169 intersection and the Roberts Dr. and Lake Sawyer Road intersection. We recommend utilizing the detour to avoid long waiting periods. Thank you for your cooperation.

Please contact the City of Black Diamond at 360-886-5700 for additional information.
