Roberts Drive Traffic Impacts and Construction Update for the week of 5/15/17 to 5/21/17

The Rock Creek Bridge on Roberts Drive will be closed for the Water Main installation Friday, May 19 to Sunday May 21.

Goodfellow Bro. will have two pipe crews installing water services, working on connections to existing water system and doing an initial pressure test of the water mains. As the weather conditions approve during the week, the Contractor will ensure the roadway dust will be kept at a minimum. The warm and dry weather will significantly improve potholes and bumps that have arose from the significant rain events this area has received. GBI is scheduled for paving the Phase 2 section at the beginning of next week which will improve the roadway surface.

On Friday, May 19, GBI will begin the process of closing the roadway for the Rock Creek Bridge work. Please plan for alternate routes starting 7 a.m. Friday to Sunday 5 p.m. Police Officers will be parked at each end of the closure around the clock. The Enumclaw School District has been notified of the closure, and have notified their bus drivers and the parents of the students who may be effected by the closure. GBI is working with the Enumclaw School District and the community to ensure the children get on and off the bus safely.

Beginning sometime next week; GBI will begin the transition process of diverting traffic to a temporary by-pass road while improvements are being made at the intersection of Lake Sawyer Road and Roberts Drive. This will significantly help with any traffic impacts while the improvements are being done.

Please contact the City of Black Diamond at 360-886-5700 for additional information.
