SEPA Mitigated Determination of Non-Significance (MDNS)

NOTICE IS HEREBY GIVEN that the City of Black Diamond has issued a SEPA threshold determination of Mitigated Non-Significance (MDNS) on March 14, 2017 pursuant to WAC 197-11-350. The full MDNS and SEPA checklist may be viewed on the City's webpage under Public Notices with the following URL: http://www.ci.blackdiamond.wa.us/public_notices.html. You may also obtain copies by contacting the City of Black Diamond during regular business hours at 24301 Roberts Drive, Black Diamond WA, telephone: (360) 886-5700.

Application Name: Roberts Drive Reconstruction

Application File Number: PLN17-0012

Applicant: Scott Hanis, Capital Project/Program Manager, City of Black Diamond, Public Works Department

Project Location: The project will be located on Roberts Drive starting approximately 100 feet to the west of the Rock Creek Bridge (in front of 23703 Roberts Drive, King County parcel 152106-9002 and will extend to the east along Roberts Drive, ending at Cemetery Road just to the east of City Hall (24301 Roberts Drive, King County parcel 152106-9093). The length of this project will all occur within NE Section 15, 21N, Range 6E.

Project Description: The City of Black Diamond Public Works proposes to improve the existing, concrete-panel roadway on Roberts Drive from 100' west of Rock Creek Bridge to the Black Diamond City Hall. The Rock Creek Bridge will be repaired to extend the life of the bridge and will receive structural improvements. A pedestrian walkway will be attached to the bridge on the south side. A catch floor will be set under the bridge at Rock Creek to catch any falling debris while upgrades are made. The existing roadway will receive a complete overlay with asphalt and sidewalk, curb, and gutters. Pedestrian lighting will be installed on the south side of the road for the length of the project. Handrail lights will be likely installed in lieu of overhead lights at the bridge to minimize lighting over Rock Creek. The City will utilize a pervious concrete for the sidewalk and porous asphalt along the south shoulder, abutting the curb and gutter, from the bridge and continuing 500 Linear Feet to the east to Sunny Lane for stormwater treatment. The total project length is approximately 1,800 Linear Feet. Utility work will include the installation of new stormwater pipe to capture stormwater runoff that will tie into existing facilities.

Lead Agency: City of Black Diamond, Community Development Department

Responsible Official: Andy Williamson
Interim Community Development Director/SEPA Official

This MDNS is issued under WAC 197-11-350. The comment period is 14 calendar days.
